

# motion telecom ADSL broadband

1300 13 33 99 - [www.motiontelecom.com.au](http://www.motiontelecom.com.au)

Motion Telecom Broadband allows you to really benefit from all that the internet has to offer. Download large emails, photos and files... videos, movies, games and music! Best of all, Broadband doesn't tie up your phone line so you can be online and take your important calls at the same time!

Broadband is a high-speed internet connection that can send and receive data up to 25 times faster than a normal internet connection. Motion Telecom Broadband uses ADSL technology to convert an ordinary telephone line into a high speed digital line for your internet connection. Because broadband does not tie up your phone line and because it is 'always on', there are no dial up costs, drop outs or dial up waiting times.

## features

### Download speeds of up to 1500K per second

Motion Telecom Broadband offers you the latest in web-based technology. We offer download speeds from 256k to 1500k per second to ensure your internet can handle your needs.

### Ease of installation

Unlike cable which requires complex rewiring and additional wall sockets, our 'plug and play' modems are easy to install and you can complete the connection without the need for costly engineer visits or drilling through walls.

### Flexibility of short term contract

Most internet providers require an 18 month contract for broadband services, however Motion Telecom Broadband only requests a 6 month commitment after which, you can change, upgrade or cancel the service without penalty fees.

### Unlimited downloads - Unlimited Plans

Motion Telecom provides unlimited internet hours so your business can make the most of 'real time' email facilities to receive orders and send and receive documents throughout the day and even after hours, without it costing you extra.

- ✓ up to 25 times faster than dial up
- ✓ use the phone while you're online
- ✓ no dial up costs
- ✓ no dial up waiting times
- ✓ no drop outs
- ✓ unlimited access - no time restrictions
- ✓ easy installation! no engineer visits
