This can be done verbally or via the form of communication you are using in communicating with the Motion Telecom team.

Urgent Complaints

We understand that all customers would consider their complaint in some way “urgent” and desire a speedy resolution. However, some complaints by definition are more urgent than others as they involve the customer being in a vulnerable position until the complaint issue has been resolved. For these complaints, there needs to be a process of escalation that is respected by us and in turn all of our customers these involve complaints where:

- The complaint is made by a customer who has been accepted as being in financial hardship under our financial hardship policy. The complaint can reasonably be presumed to directly contribute to or aggravate your financial hardship
- A disconnection of a service has occurred or is imminent and due process has not been followed.

We will provide confirmation of the proposed resolution of the urgent aspects of the complaint and, if accepted by the complaint, implement the urgent aspects of the resolution within two (2) working days after the date the complaint is received where possible. If we do not believe it is possible to propose and implement a resolution to your complaint within two (2) working days of acknowledgment, we will contact you and inform you of the reasons for the delay, and the indicative timeframe for the resolution of the complaint.

Internal Escalation

In some cases, either upon your request or upon the discretion of our Customer Service staff, the complaint may need to be referred internally. This is to provide you with the most fair, objective and efficient complaint handling process to your complaint.

If your complaint needs to be referred to a Manager within Motion Telecom , the Manager may then need to call upon the authority or expertise of staff in other departments or relevant third parties. In this instance a “first contact” resolution may not be possible. However you will receive a complaint reference number and we will endeavor to resolve your complaints within our resolution timeframes.

If you are not satisfied, you can escalate your complaint

If after the internal escalation and complaint handling process has concluded and you are still not satisfied with the outcome or resolution of your complaint you are entitled to refer your complaint to the following external dispute resolution bodies after you have first attempted to resolve your complaint with Motion Telecom:
